

JANUARY 2018 | WHITE PAPER

#MONEYFORWEBCAM

KAMERA

VOL.1

KAMERA

THE FIRST LIVE STREAMING VIDEO PLATFORM OF
BLOCKCHAIN

EARN MONEY WHILE YOU GET FUN ON WEBCAM

IN KAMERA

**LOW FEES AND NOT
CREDIT CARD
REQUIRED**

99% OF PROFITS

**SECURITY AND
ANONIMATY**

EASY WITHDRAWS

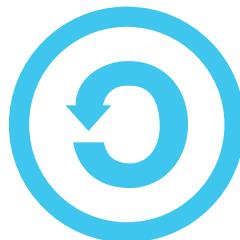

- Kamera (KMR) is the new cryptographic currency for paying tips for webcam show; even if you are musician, webcam model, teacher of philosophy, fitness or crypto couch.
- Kamera gives you the opportunity of earn tokens just Broadcasting the world what you are. It's an Ethereum ERC-20 token, which will allow you to send tips to the user for their webcam shows through the Kamera application without using a card of credit, differentiating itself from other services.
- Among others due to its anonymity and its low commission for the use of the service and the 99% of the profits for the users, directly in their wallets and not in the hands of a third party.
- A life streaming platform on Blockchain represents a viable alternative to the discrimination and inefficiencies of legacy financial institutions.
- Blockchains are globally distributed systems of record that provide permissionless access to anyone with an internet connection. Anyone, regardless of their profession, can use a kamera on the blockchain to store their funds and transact without fear of having their accounts shut down.

FEATURES

LOW FEES

While others charge up to 15% fee on each transaction. The rates of cryptocurrency transactions range between 0% and 0.5% per transaction, which generates more money in the pockets of the users.

EASY WITHDRAWS

You can always withdraw your tokens at any time without asking to any administrator, because only the user will manage the private key of the wallet.

SECURITY

The application will use data encryption and advanced security so unauthorized third parties can not access to the user's activities; 100% anonymity, autonomy and safety of the users is due to the complete decentralization and the blockchain technology.

99% OF PROFITS

Nearly 99% of the profits go to the hands of the users that transmit their shows by webcam, unlike other known web services where only 65%.

HOW IT WORKS

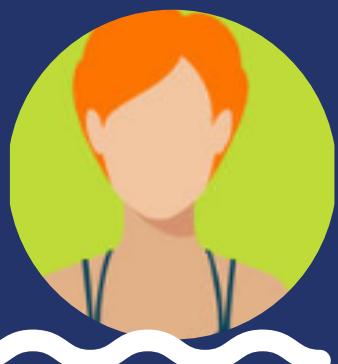

USERS

- A user can connect to the service by registering with some of their data and creating a new ethereum wallet or connecting it to the kamera service, if they already have one. It is where the user can deposite his kamera tokens.

- Kamera tokens are based on the ethereum blockchain smart-contract and represent the main tool for transferring (tips and payments for and payments for watching live broadcasts) value between users

TOKENS

Changingt okens

- All payments on the platform are carried out automatically in KMR tokens stored on the blockchain.

- Kamera tokens can easily be purchased or sold on Etherdelta and Idex for now an after the token sale best cryptocurrency exchanges of crypto; or save the tokens on a ethereum wallet.

Recieving tips

MANY PEOPLE WOULD LIKE TO EARN BY BROADCASTING WITH 99% OF THE PROFITS

PLATFORM

Kamera the first live streaming video platform with blockchain technology. With many sections for everyone and everywhere, just broadcast what you want: art, food, couching, dance, travel; everything and earn money for your live transmissions, connecting with the world.

CONNECTING THE WORLD

- Users can watch live streaming videos by typing or paying the fee established by the user.

- Users will have ratings of their profile to maintain harmony and legality when paying and charging for live broadcasts

SECURITY

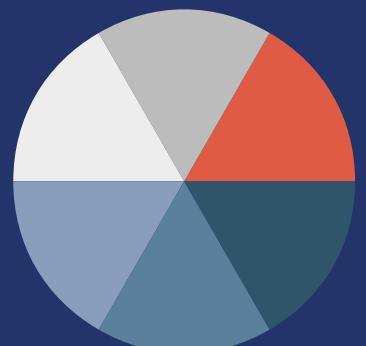

GOOD INCOME

- Everyday, around the world billions of people are live streaming videos for free, Why not do it, just join Kamera, create a profile and start earning.

- The user is free to choose the theme of his transmission, he should only choose among the many kamera live themes.

UPCOMING ICO

KAMERA

STARTS ON JANUARY 31TH AND FINISH ON MARCH 1TH

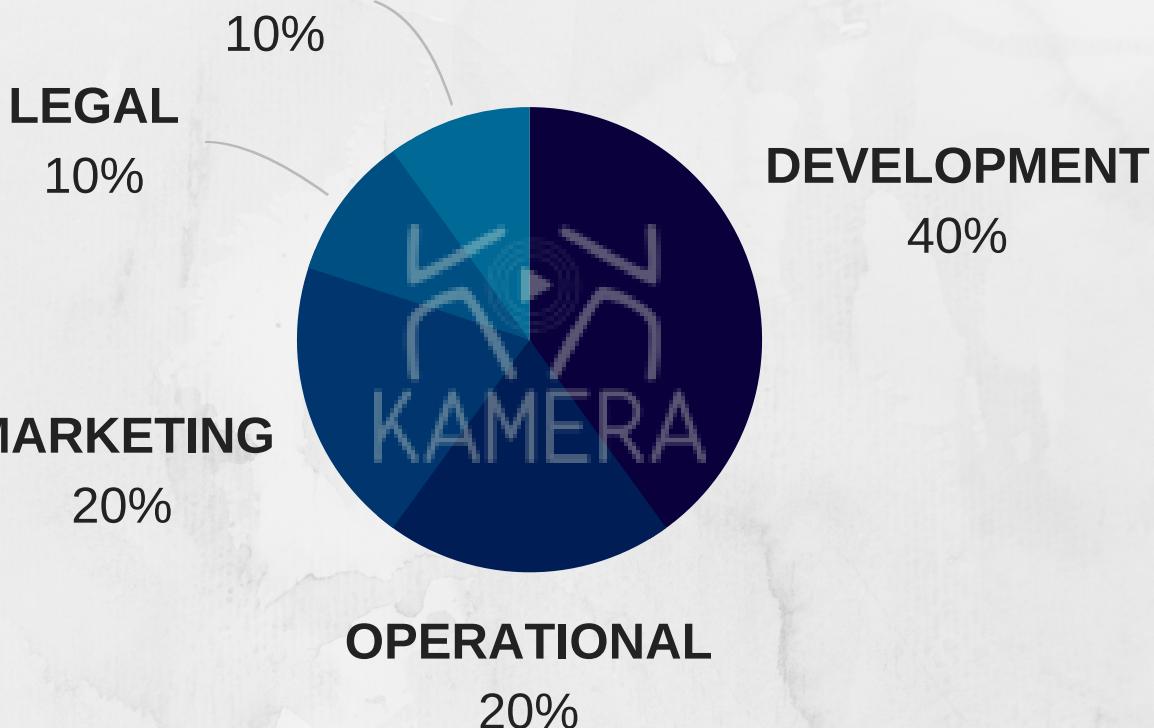

- The total supply of kamera is 7, 000,000 KMR tokens and only 2.500.000 tokens will be on sale for the ICO.
- The minimum investment is of 0.1 Ether or 0.01 Bitcoin.
- There will be five rounds with special bonus each one.
- The money raised will be used to develop the software and finance the entrance to the exchanges.

ROUND	PRICE	QUANTITY	BONUS
1	1.45 \$	500,000 KMR	5%
2	1.75 \$	500,000 KMR	4%
3	2.00 \$	500,000 KMR	3%
4	2.15 \$	500,000 KMR	2%
5	2.45 \$	500,000 KMR	1%

The physical quantity of KMR tokens is limited, therefore, due to persistent demand for a resource, the cost of tokens should constantly increase

ROADMAP TOKEN

Q4 2017

- Definition of the project
- Initial creation of the website
- Publication of the kamera token in etherdelta
- Advertising and marketing of the project

Q1 2018

Advice and development of the legal area of the startup

- Launching of ICO
- Launch of the final Whitepaper
- Start of software development
- Publication of the final website
- Publication of the token in new exchanges

Q2 2018

Launch of the alpha version of the application

- Association with modeling and studies agencies
- Marketing and advertising
- Publication of the token in new exchanges

ROADMAP TOKEN

Q3 2018

- Kamera application testnet
- Beta release of the Kamera application

Q4 2018

- Pilot test in Colombia, Mexico and the United States
- Global marketing and advertising on websites such as google, Facebook and other sites

Q1 2019

- Bug fixes
- Final launch of kamera application

Q1 2019

- 10,000 Models and people using the service
- Testnet service of Kamera's alternative applications

TEAM

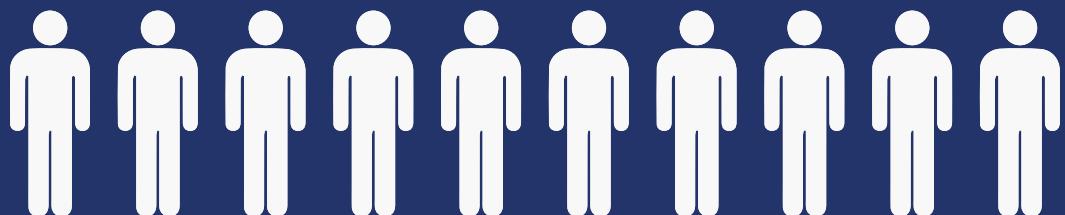

- The kamera team is composed of professionals from different countries of the world, experts in crypto currencies, coaches, programmers, designers, communicators and more creative beings more seeking to innovate with a social network of live transmission with blockchain technology.
- At the moment we prefer to remain anonymous, only until the launch of the Kamera platform and find the right country to develop our recording studios and offices.

TEAM

- It experts. professionals in their field; the ones who created web sites when the internet was available only through squeaking modems, highly loaded IT systems architects, creators of colorful and wonderful project on the blockchain since the early beginnings.
- Specialists in the field of business, business model generators, new products release, process optimization, productivity increasing . And marketers, xperts on social media development,

Term and Conditions

This document is for informational purposes only and does not constitute an offer or request for the sale of shares or securities of the Kamera platform or any related or associated company.

The Kamera Tokens do not guarantee any control or privilege.

Control of the Kamera tokens does not give your controller ownership or capital in KameraLive, KameraLive platform or any other associated business. Even though the community's criterion can be taken into account, the Kamera tokens do not guarantee any right to participate in the management or decision making of any business related to the Kamera platform.

No guarantee of income or profits derived from marketing

All examples of income and profits used in this document are for demonstration purposes or represent only the industry averages and do not constitute guarantees of the results of commercialization.

Risks associated with Ethereum

The Kamera tokens are issued in the Ethereum blockchain. Such as, any malfunction or unexpected operation of the Ethereum protocol can cause the Kamera token trading network to operate in an unexpected manner.

Normative uncertainty

The technology related to block chains has been subject to supervision and scrutiny by different regulators around the world. The Kamera tokens network may be affected by one or more regulatory inquiries or actions, including but not limited to restrictions on the use or possession of digital tokens such as Kamera.

Kamera tokens are not an investment

The Kamera tokens do not represent any formal or legally binding investment. Due to unforeseen circumstances, the goals described in this document are subject to change. While it is our intention to achieve all the markers outlined in this document, all individuals and parties that acquire the Kamera tokens do so at their own risk.

Quantum computers

Technical advances such as the development of quantum computers could present risks for crypto currencies, including Kamera tokens

Lack of adoption and Risk of loss

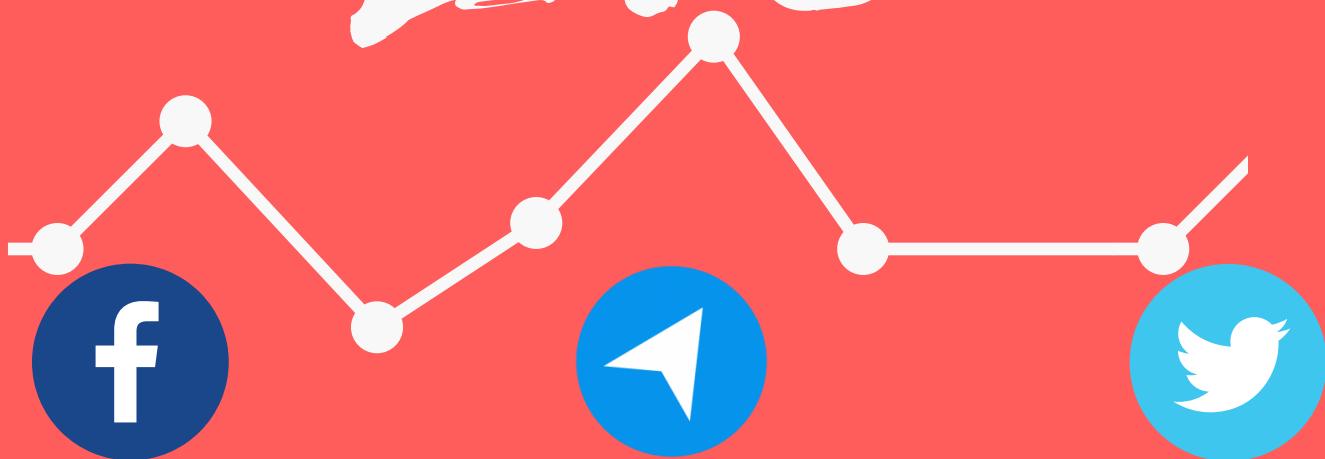

- While Kamera tokens should not be seen as an investment, they can have value over time. That value can be limited if the Kamera platform lacks use and adoption.
- Crowdsale funds are not insured. In case of loss or loss of value, there is no public or private insurer that offers recourse to the buyer.
